

ENDLESS BELTS

Moving Forward Together

We're the global market leader in the production of highly customised Endless conveyor belts for manufacturers of mobile materials processing equipment (OEMs).

We serve 7 equipment segments: crushing, screening, recycling, washing, environmental, bulk material handling and road construction - annually shipping around 300 miles of Endless conveyor belts.

With 40 years' experience under our belts, we remain determined to help our customers succeed by working closely together from the machine design process right through to serial production. Our team is always on hand to troubleshoot, problem solve and collaborate to ensure our product offering is fit for your purpose.

WHY ENDLESS BELTS?

- ✓ Manufactured to DIN 22102 and covered by a 12 month warranty
- ✓ Hot vulcanised and branded with a unique quality identification number for full traceability
- ✓ Ready-to-fit for improved production efficiency, reduced inventory and easy re-ordering
- ✓ Produced in EP multi-ply flat & chevron, ToughFlex®, Ripstop, Fabric Breaker and with specialised covers (oil/heat/fire/frost resistant)
- ✓ Custom belts available with hot moulded siderails and cross-cleats including overband magnet belts
- ✓ Belts can be supplied Prepared (ready to splice) as Cut Lengths (ready to prepare) or as Zip Clip® replacement belts

ENDLESS BELTS

Moving Forward Together

IN-HOUSE BELT TESTING LAB

Our Endless conveyor belts are routinely quality tested in our in-house belt testing lab, for abrasion resistance, tensile strength and adhesion levels of both the cover rubber and fabric.

Smiley Monroe can quickly and conclusively test the wear (abrasion) resistance, tensile strength and adhesion levels of the cover rubber and fabric of conveyor belts and rubber materials, to ensure conformity to DIN and ISO standards. Our dynamic tester simulates accelerated life of conveyor belts and splices - testing belt quality to its limits for: flex, durability, adhesion, stretch and splice strength.

In-house wear resistance (abrasion) testing

CUSTOMISED, CONVENIENT, CONSISTENT

Manufactured in our 30,000 sq.ft production centre under controlled conditions and customised to suit your application, our Endless conveyor belts offer superior consistent quality. Supplied ready-to-fit, Endless belts reduce manual processes on your production line, reduce inventory and can be easily re-ordered in line with your build forecasts.

GLOBAL SUPPLY

We are trusted as a sole supplier of Endless conveyor belts to global original equipment manufacturers (OEMs). From our HQ in Northern Ireland, we export our Endless belts to over 60 countries including our key markets of Europe and North America.
