

GLIDE TRACKER™ ROLLER

The Self-Cleaning Conveyor Belt Tracker Roller

Smiley Monroe's Glide Tracker™ Roller is the cost-effective solution to the age-old problem of conveyor belt misalignment.

Glide Tracker™ Roller solves the majority of tracking issues without the need for expensive mechanical steering rollers, which can be tricky to install and difficult to commission.

Easy to install and low maintenance, Glide Tracker™ Roller keeps your belt tracked, preventing damage and minimising material spillage and associated clean-up costs.

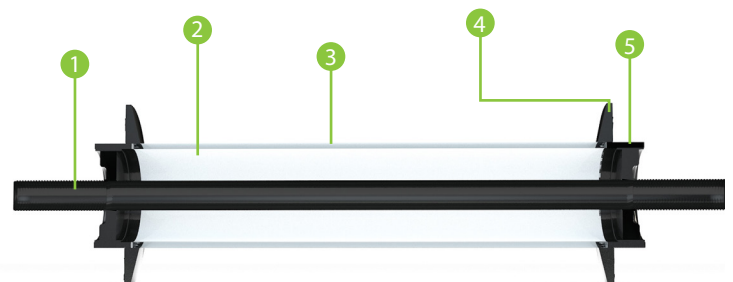

Glidetracker™ fitted at tail section to improve feed point tracking

WHY GLIDE TRACKER™ ?

- ✓ Cost-effective conveyor belt tracking solution
- ✓ Self-cleaning, ultra low friction surface
- ✓ Simple, innovative design
- ✓ Easy installation – Direct replacement for existing return rollers with no special brackets required
- ✓ Immediate results and low maintenance
- ✓ Keeps your belt tracked, preventing damage
- ✓ Minimises material spillage and associated clean-up costs
- ✓ Suitable for reversible conveyors
